Web3 Marketing Lead | AI-powered Execution

[Website](#) | [LinkedIn](#) | [Github](#) | [Medium](#)

SUMMARY

Data-driven web3 marketing leader with 10 years of experience, including 5+ years in Web3 and blockchain. Proven track record in scaling user acquisition and community growth across Layer1s, perp DEXs, and DeFi protocols with 100K+ users onboarded, 150K+ community built, and 30+ partnerships closed. Strong in growth marketing, KOL and ecosystem partnerships, funnel optimization, and narrative-led execution. I also build AI-powered tools to automate everyday marketing workflows, including competitive intelligence, positioning research, and narrative opportunity detection, enabling faster and more consistent execution.

KEY ACHIEVEMENTS

- Scaled Forecastathon trading competition daily signups 10x (from 10 to 100+) by redesigning onboarding and integrating Web3Auth
- Onboarded 2,500+ quantitative traders and data scientists across 4 Forecastathon seasons
- Generated 70,000+ signups for RFX Exchange closed alpha through precision KOL targeting, Ecosystem Partnerships, driving strong conversion to active on-chain traders
- Built marketing analytics infrastructure on Grafana, Plausible, and Timescale from scratch, providing real-time CAC visibility by channel, funnel attribution, and on-chain behaviour tracking
- Closed 20+ KOL and ecosystem partnerships across Web3 products and campaigns
- Built and open-sourced 5 AI-powered marketing tools for competitive intelligence, narrative monitoring, and positioning research. Explore a Medium article I wrote on my work [here](#) and the GitHub projects [here](#).

WORK EXPERIENCE

Growth/GTM Lead

April 2026 - present

Monorail - DEX Aggregator on Monad

- Led ecosystem growth and GTM for Monorail on Monad, executing partner and community campaigns that generated up to 100K+ organic views.
- Built and onboarded a network of 20+ ambassadors, expanding Monorail's community presence and organic distribution across the Monad ecosystem.
- Developed automated performance trackers for social growth, Monorail's Monad mindshare and competitor activity; used Dune Analytics and SQL to generate actionable growth insights.
- Developed the "Your Journey on Monad" campaign, using personalised on-chain activity to create shareable user experiences and deepen community engagement.

- Designed data-led acquisition campaigns across social, referrals and trading, defining KPIs for reach, conversion, first-time traders and swap volume.
- Created the strategy and creative direction for Monorail's Open by Monad activation, spanning event campaigns, community incentives and branded merchandise.

Marketing Lead

January 2025 - March 2026

Autonity - Layer1 Blockchain

- Scaled Forecastathon trading competition from zero to 2,500+ participants through LinkedIn outbound to hedge funds and algo trading clubs, KOL partnerships in the quant space, and structured onboarding"
- Increased daily signups 10x by implementing Web3Auth and redesigning onboarding flows through funnel analysis
- Built analytics infrastructure using Grafana, Plausible, and Timescale to track funnel drop-offs, campaign performance, CAC
- Authored short and long form content across X, Discord, tg, Medium, including posts, threads, and announcements
- Executed narrative hijacking strategies around specific events to drive traffic, engagement, and signups
- Created Autonity's content guidelines as a guiding force for all content strategy
- Built & deployed AI-powered marketing automations for competitor monitoring, real-time narrative detection, etc.
- Ran paid campaigns on X, Reddit, and LinkedIn with A/B tested creative and performance-led optimization
- Did targeted LinkedIn outbound via HeyReach to attract quants from hedge funds, universities, and trading firms
- Built and managed a quant/data-science KOL network, handling sourcing, negotiation, briefing, and ROI tracking
- Launched and managed email marketing campaigns, including weekly quant newsletters, product updates
- Secured strategic ecosystem partnerships, including CrunchDAO for BTC volatility prediction models
- Onboarded influential figures in the prediction market and quant space like Robin Hanson and Corey Hoffstein
- Represented Autonity at global conferences, including Token2049, EthCC, Istanbul Blockchain Week
- Launched an Ambassador Program with structured onboarding, activity tracking, and performance review
